### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 38:

Line 3: after "rails" insert --formed as metal wires and connected at the lower clip end--.

Claims 28-42 are allowed. It is noted that the above amendment was needed to incorporate the language of claims 16 and 17 into claim 38. In the remarks filed 9/8/06, the Applicant indicated that claims 1 and 16-18 were incorporated into new claim 38 (as claim 18 was indicated allowable, claims 1 and 16-18 needed to be combined in order to place case in condition for allowance), however, claim 38, as filed, only included the subject matter of claims 1 and 18. As the omission of the structure in claims 16 and 17 appears to be an oversight by the Applicant (as evidenced by the Applicant's remarks referred to above), the Examiner amended claim 38 to include the subject matter of claims 16 and 17.

It is noted that the Examiner received this application on 10/12/06 (the last day of the extended statutory period). On this day, a telephone call was made to the Applicant to receive authorization for the above amendment, but the Applicant could not be

reached. Rather than send out an advisory action followed by a notice of abandonment, the Examiner made the changes discussed above without the Applicant's approval.
